

FAST TRACK TO THE TOP™ DEVELOP YOUR YOUNG TALENT

At RTC, we have developed a series of face to face group sessions entitled **Fast Track to the Top™**.

This programme identifies and nurtures high potential talent through profiling and assessment, with proven success throughout all areas of the hospitality sector with brands such as Hilton, Apex Hotels and xxxx.

This year we are delighted to be running it in partnership with Hospitality Industry Training (HIT). The focus of the course is about enabling and inspiring people under the age of 30 to develop their skills rapidly and increase their overall contribution within the corporate environment. They can do this by taking greater responsibility through volunteering and influencing, as well as generating and implementing innovative ideas. In a nutshell - we'll help you invest in the people you really should retain and protect the legacy that you have created within your organisation.

RTC is a corporate and leadership organisation like no other. We are fully accountable for the results we achieve and in turn make those engaging with our services accountable in achieving actual, outcome based results. By transforming people, we enable cultural shifts within businesses, creating a long term legacy of economic benefit.

Our business was founded over 30 years ago by Ros Taylor, one of the UK's leading psychologists, authors and presenters. Using pioneering psychological techniques within the context of leadership coaching, RCT is fully ILM7 accredited and devise programmes, courses and workshops in the UK and internationally.
